Objective

Motivated and skilled architect student with a passion for innovative design and sustainable solutions. Seeking to contribute my expertise in conceptualizing, planning, and executing architectural projects that harmoniously blend aesthetics, and functionality.

Experience

August 2022 - Present
Lead Architect • 2023 Orange County Sustainable Decathlon

Responsibilities : Take the lead in conceptualizing, designing, and developing architectural plans considering factors such as aesthetics and functionality. Oversee the architectural team and collaborate with other departments to ensure projects are completed on time. Resolve complex design and construction challenges. Motivate and lead the architectural team, delegating tasks effectively. Quality control of documentation. Integrated sustainable design principles and environmentally friendly practices into the architectural project. Render creation to explore materiality and sensations. Video render making of the community proposed.
